Remarks

The September 22, 2006 Notification acknowledges applicant's response filed on September 11, 2006 including a copy of the "Sequence Listing" in computer readable form in connection with the subject application. However, the September 22, 2006 Notification indicates that the following requirements set forth in the March 10, 2006 Notification of Missing Requirements have not been completed: the content of the computer readable form does not comply with the requirements of 37 C.F.R. 1.822 and/or 1.823, as indicated on the marked-up "Raw Sequence Listing." The September 22, 2006 Notification requires that applicants provide a substitute computer readable form (CRF) copy of the "Sequence Listing" and a statement that the content of the sequence listing information recorded in computer readable form is identical to the written (on paper or compact disc) sequence listing and, where applicable, includes no new matter, as required by 37 CFR 1.821(e), 1.821(f), 1.821(g), 1.825(b), or 1.825(d).

In response, applicants note that the "Raw Sequence Listing" referred to in the September 22, 2006 Notification was not received by applicants. In addition, applicants note that an October 9, 2006 telephone messages to Ms. Christine S. Washington of the United States Patent and Trademark Office from Maria Marucci, Esq. of the undersigned attorney's office requesting a copy of the "Raw Sequence Listing" was not returned.

Accordingly, applicants without conceding the correctness of the Examiner's position but to expedite prosecution of the subject application enclose a substitute computer diskette containing the substitute Sequence Listing in computer readable form. Applicants attach hereto as **Exhibit B** a paper copy of the computer readable form of the substitute Sequence Listing. Applicants attach hereto as **Exhibit C** a Statement in Compliance with 37 C.F.R. §1.821(f) certifying that the substitute computer readable form (CRF) is identical in content to the substitute paper copy of the Sequence Listing attached as **Exhibit B**. An amendment replacing the Sequence Listing as filed with the attached substitute paper copy of the Sequence Listing is referred to on Page 2 of this Amendment. This Amendment does not involve any issue of new matter. Therefore, entry of this Amendment is respectfully requested.

Additionally, applicants note that the enclosed computer readable form of the substitute Sequence Listing was checked for errors using the United States Patent and Trademark Office's Computer Readable Form Checker 4.4.0 (2005) program and no errors were found as indicated on the Verification Summary Report attached hereto as **Exhibit D**.

If a telephone interview would be of assistance in advancing prosecution of the subject application, applicants' undersigned attorney invites the Examiner to telephone him at the number provided below.
